

# Documents

- [Blueprint](#): Document describing SyBIT's mode of operation, internal quality standards and communication channels
- [Internal Guidelines](#): One-page description of each procedure in SyBIT, pointing to the individual checklists

## Documentation

- [How to use Wiki as an E-Notebook](#)
- [Wiki help and FAQ](#) pages

## Protected documents

- [Presentations](#)
- [Internal - Meetings, Conferences and Visits](#)
- [SyBIT Infrastructure](#)
- [Setting up and using ADFS](#)

## General project documentation

These are general documents and templates of interest to all SyBIT projects:

- [SyBIT Project Team Charter Template](#): A team charter for SyBIT projects. Here, project-relevant ground rules can be set. To be understood as a basis for discussion - adjust to particular needs.
